

FOCUSED ON FUNCTION AND THE FREEDOM OF MOBILITY

Amylior offers products that are designed to enhance the quality of life and mobility of a wide variety of consumers. This product overview will briefly cover our full line of diverse products, including:

ALLTRACK SERIES

- The **Alltrack Series of power wheelchairs** are well known for their durability, and are designed to accommodate users from the smallest child to larger bariatric consumers with unique positioning needs
- Every Alltrack can be accessorized with a **full line of power positioning, electronics, specialty controls and custom components** to ensure each system is optimized for individual comfort, function and success

Stella

- The **Stella Rollator** and **CG Air therapeutic air cushion** are designed to stand out amongst their competitors by offering unique accessories and innovative features not found in other offerings

Join **Amylior's Brad Peterson, VP US Sales**, and learn more about the products and their features & applications.

You can schedule an appointment with Brad at <https://calendly.com/bpeterson33-amylor> or view the presentation at your convenience by clicking the link on our booth page during the show.
