Products & Services

Developing solutions to "Position Your Clients for Success." I'm here using my 22+ years expertise and understanding of the industry, so you receive real solutions and experience that delivers true results for the Care Team.

RIDE DESIGNS CUSTOM WHEELCHAIR SEATING

Ride is committed to creating wheelchair seating systems that help protect skin, enhance mobility, improve function, and optimize posture.

FREEDOM CONCEPTS BICYCLES & CHILL-OUT-CHAIRS

Imagine those first few moments — watching a little one with Cerebral Palsy who has never had the chance to ride a bike before. With mother at his side, he gently pushes the pedals for the first time, picks up a little speed, and realizes that he can ride a bike.

SLEEP POSITIONING SYSTEMS

Sleep Positioning Systems provide support to keep the users body aligned through out the night. For clients who may not be able to position themselves, it is important to have proper body alignment to prevent physical deformities caused by poor bed posture.

STANDZ

Standz is a standing system from Jenx. Standz abduction standing system offers Prone and Supine abducted standing (of up to 60°). Standz available with a full range of accessories to accommodate all Children up to approximately 9 years old.

SPECIAL TOMATO

Unique innovation is what keeps Special Tomato on the leading edge of pediatric seating & positioning. Our designers and engineers work hand in hand with leading therapists to design versatile, durable products that accommodate a wide range positioning needs.

SAFE SPACES

SafeSpaces creates a low stimulation environment that promotes easier settling at bedtime and improves sleep patterns, providing a safer environment for those who continue to wake at night or with Daytime behavior needs.
