

FUSION APT

New Product!

A firm 3" foam perimeter for assistance with egress/ingress

Convertible to Non-Powered

Fusion APT Mattress

- A firm 3" foam perimeter for assistance with egress/ingress
- Can accommodate patients weighing up to 350lbs
- Nylon woven fabric with PU coating finish
- Employs 5" air cells to provide therapeutic 2-in-1 alternating pressure
- Convertible to Non-Powered for moderate to high-risk patients

Fusion APT Pump Features

- 10 minute 2-in-1 alternating cycle ensures clinically effective therapy
- 8 adjustable levels of comfort depending on the patient's therapy requirement
- The Power Failure Alarm is triggered during a power outage
- The Low-Pressure Alarm is triggered when the air pressure of the mattress is lower than the default setup
