

JUDY CHAIR

Your patients deserve the best in comfort!

- Infinite adjustability for tilt and recline positioning.
- Seat and back consist of interwoven tubular design for improved pressure distribution and postural support.
- Upholstery is breathable, attaches to the seat with snaps, easily removable for machine washing.
- Headrest is wide and wraps-around, antibacterial, padded height adjustable, with vertical and front/back and side to side rotation.
- Back is wide and supportive, can be arranged to vary the depth of the seat bottom.
- Seat bottom is adjustable with inclination of 10° to 27°, thanks to a gas spring; prevents the user from sliding forward. Low seat, to facilitate the transfer of the user.
- Arm rests flip up, eliminating all obstacles for transfer; with padded and height-adjustable armrests.
- Lateral kneepads; large calf rest pads provide protection and comfort.
- Footrests swing away, flip up, are height adjustable and elevate, and removable.
- 8" front solid swiveling wheels and 12" rear wheels; steers straight!
- Drum brakes are engaged with a single control pedal.
- Push handle that is adjustable in tilt/height; it is ergonomic for the care-giver even when Juditta is in the lying down position.
